Good afternoon Jim,

GEM does not need to review and/or approve a subdivision or site and development plan application/proposal prior to submittal to Public Works of the final plat referenced in Russell's email below. Please let me know if you have questions or need anything else on this matter. Thanks.

David

PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from county employees and county officials regarding county business are public records available to the public and media upon request. Your e-mail communications may be subject to public disclosure .

David –

We have discussed the submittal of the Final Plat document with Public Works, as we discussed at our meeting on June 24, 2010 with the County Attorney's office. Jim Pilcher needs a letter from you stating that Growth Management does not need to review this particular plat since it is a one lot plat with no improvements proposed. Can you please send a letter (an email would probably do) to Jim Pilcher stating so? Thank you.

Russell Large, P.E.
