

Kristin Dozier

Leon County Commissioner District 5

Friends,

The spring season in Leon County is always a busy time. Our community recently played host to several very successful events, including Springtime Tallahassee, Word of the South and the Southern Shakespeare Festival. It's events like these that make our community so special.

If there is ever anything I can help you with, please feel free to call me (850) 606-5375 or just email me at dozierk@leoncountyfl.gov. You can also find me on [Facebook](#).

P.S. You're receiving this newsletter because you inquired about government services in the past. If you do not want to receive future newsletters, please click the "unsubscribe" button at the bottom of this email.

Leon County Solid Waste Facility

At a recent budget workshop, the County Commission approved a [plan](#) to close the solid waste facility on Apalachee Parkway, which accepts only construction debris and construction materials. Currently, all household waste is hauled and disposed of at a regional facility in Jackson County.

Other activities at the site will continue to operate, including free mulch for the public, the rural waste center and swap shop, hazardous waste and electronics recycling and yard waste/tire disposal.

The existing recreational activities located at the [Apalachee Regional Park](#) will not be impacted, and could possibly expand in the future. The move to close this facility will eliminate a proposed budget shortfall of nearly \$1.3 million.

Third Americas Competitiveness Exchange (ACE)

Last month I had the honor of participating in the Third Americas Competitiveness Exchange on Innovation and Entrepreneurship, hosted by the U.S. Department of Commerce's Economic Development Agency (EDA).

I joined participants from 28 other countries on a six-day trip, where we visited more than 40 advanced technology centers, innovation hubs and public-private partnerships.

Some of sites we visited:

[Natural Resources Research Institute](#) within the University of Minnesota- Duluth — a research-based institute.

[Mayo Clinic](#) in Rochester, Minnesota — a nonprofit medical practice and medical research group that employs more than 3,800 physicians.

[City of LaCross, Wisconsin](#) — the largest city on Wisconsin's western border, a college town and a city recognized as a regional technology and medical hub.

[The Food Enterprise Center](#) in Viroquo, Wisconsin — an incubator for food entrepreneurs and social investors.

[Wisconsin Institutes for Discovery](#) — a transdisciplinary research institute at the University of Wisconsin-Madison.

It is my hope that what I learned from the exchange can help expand Leon County's efforts to diversify its economy and create more jobs at all levels. To have the EDA select someone from our community to participate in ACE is an important indication that we're on the right track.

Events in the Community

May 9 - [A Walk Through Living History Parade & Festival](#) at Speed Spencer Stephens Park (9:00am-4:00pm)
