Revisions to Construction Plans

PROJECT # 5835-001-01 - JULY 19, 2016.

SURVEY INFORMATION PROVIDED BY MERIDIAN SURVEYING

1 SHADE TREE PLANTING

NOTE:
- Apply pine straw mulch in a circular pattern around the tree roots to a depth of 12 inches.
- Use a typical overstory tree.
- Clear trunk height for planting details.
- Shade tree planting details for tree trunks.
- Planting in poor soils.

TYPICAL EDGE CONDITIONS

1. Excavate trench by hand with spade. Add excess soil to adjacent planting bed.
2. All existing trees to be saved shall have a minimum of 36 inches of pine straw mulch.

PLANTING BED & TREE MULCH RING EDGE

1. PREPARE PLANTING SOIL
2. TOPSOIL AS SPECIFIED
3. MULCH AS SPECIFIED
4. TYPICAL OVERSTORY TREE
5. MULCH AS SPECIFIED
6. PLANTING DETAILS
