Project: 90-ft. Talquin Communications Monopole (Lake Jackson Location)
Type B, Final Design Plan Approval (FDPA Track)
Project ID: LSP130044
Applicant: Talquin Electric Cooperative, Inc.
Agent: Jeremy Nelms, Talquin Electric Cooperative, Inc.
Parcel ID: 24-31-20-602-0000
Location: 5801 Tower Road

The application proposes to erect a 90-ft. (height) monopole within an existing electrical substation. The monopole installation is intended to provide communications between the existing electrical substation and the Talquin corporate operations center. According to the applicant, the monopole will allow for transmission of real-time Supervisory Control and Data Acquisition (SCADA) information that will improve monitoring of the electrical grid. The monopole will replace an existing 50 ft. pole structure. This application is a Type “B” level site plan application that will be reviewed through the Final Design Plan Approval (FDPA) Track.
