

Conditionally Exempt Small Quantity Generators (CESQG)

Are businesses, government, church, and non-profit entities that:

- Produce less than 220 pounds of hazardous waste per month
- Produce less than 2.2 pounds of acute or severely hazardous waste per month
- Accumulate less than 2,200 pounds of hazardous waste per year.

They can dispose of hazardous wastes at the Leon County Hazardous Waste Center. Contact us for an appointment and the fees below will apply. US-EPA listed Small Quantity Generators (SQG) and Large Quantity Generators (LQG) are not eligible.

Aerosol spray cans	\$0.20/ea	\$1.00/ea pepper spray
Antifreeze and glycols:	\$1.00/gal	
Ballasts – PCB containing:	\$1.00/ea	
Ballasts – Non-PCB containing:	\$0.30/ea	
Batteries – Ni-Cad, Ion, Metal Hydride:	\$1.00/lb	
Batteries – Sealed lead/acid:	No Charge	
Bleach or liquid chlorinator:	\$3.00/gal	
Cleaners/detergents:	\$2.00/gal	
Chlorinated solvents (incl. refrigerants):	\$8.00/gal	
Corrosives		
• Muriatic/hydrochloric acid:	\$6.00/gal	
• Concentrated nitric acid:	\$10.00/gal	
• Concentrated sulfuric acid:	\$20.00/gal	
• Battery acid:	\$6.00/gal	
• Ammonium hydroxide:	\$7.00/gal	
• Potassium hydroxide:	\$1.50/lb	
• Sodium hydroxide:	\$1.50/lb	
• Sodium Carbonate	\$0.50/lb	\$6.00/gal laundry
Cyanides, liquid or solid:	\$18.00/gal	\$3.00/lb
Epoxies and 2-part resins	\$5.00/gal	
Formaldehyde or formalin:	\$6.00/gal	
Flammable liquids (non-paint):	\$2.00/gal	
Fluorescent lamps:	\$0.40/ea 4 ft or less, CFL	\$0.80/each 5 ft or more
Grossly mixed/contaminated material	\$2.00/lb	
UV/HID lamps:	\$1.00/ea	
Oil filters:	\$50.00/55gal drum	\$6.00/5gal pail
Oil, used: (No charge < 50 gal. self service)	\$0.20/gal	
Oily sorbents:	\$2.00/gal	\$0.20/lb
Oxidizers and dry chlorinators:	\$3.50/lb	
Oxidizing liquids or iodine:	\$7.00/gal	
Paints: Latex or water-based:	\$2.00/gal	
Paints: oil-based, stains and spirits:	\$3.00/gal	
Paints: Automotive and lacquer-based	\$4.00/gal	
Pesticides/Poisons/Fertilizers:	\$1.00/lb (solid)	\$6.00/gal (liquid)
Photographic developer or fixer:	\$6.00/gal	
Pressure tanks or bottles:	\$5.00/ea <20 lb	\$8.00/ea >20 lb
Pressure tanks: 2-part urethanes	\$15.00/ea	
Roofing tar or flammable adhesives:	\$4.00/gal	
Reactives/Laboratory chemicals NOS:	\$10.00/lb	10.00/gal

Packing hazardous waste for transport

We have prepared the following suggestions to help CESQG customers pack hazardous materials for transport to the Hazardous Waste Center. Please call ahead to make an appointment. Normally, we are able to provide same-day appointments.

1. Prepare an inventory of material to be transported. This will help us to sort materials and will assist responders if you have an accident while in route.
2. Place containers in a box or plastic bag to contain any spills.
3. Place like materials together. Separate unlike materials.
4. Make sure containers are tightly sealed.
5. If a container is leaking, place it into a larger container like a coffee can or bucket, preferably one that can be sealed. Large zipper bags are also very effective at containing leaks.
6. When possible, please label materials that are not in their original containers or that have lost their original label.
7. Fluorescent lamps can easily break. The best way to transport them is in their original packaging. If not in original package, tape or tie groups of tubes together and wrap with some kind of protective padding. Loose compact fluorescent lamps (CFLs) should be wrapped in padding, such as paper towels. Do not pack CFLs in the same container with heavy items such as batteries.
8. Transport containers in the trunk of your car, in the bed of a pickup truck, in the cargo area of a box truck/trailer or a open trailer. Remove other items from transport units.
9. For your safety, please transport flammable liquids like gasoline in DOT approved containers. If fuel or oil is transported in steel drums, they must be closed-top, in good shape and have properly fitting bungs.
10. Any other drums used for transport must be in good condition and properly sealed.
11. Please properly secure all loads to prevent shifting during transit.
12. If you have further questions, please call 606-1803.
