Re: Resignation from the Healthcare Advisory Board

It is with regret that I must inform you of my resignation from the Leon County Healthcare Advisory Board.

I have recently assumed additional responsibilities with my employer which necessitate frequent travel and will compromise my full attendance at future meetings. I have thoroughly enjoyed my time on this committee and wish you and all the members continued perseverance and success as you work to make Leon County a healthier community.

Thank you for the opportunity to be a part of this important initiative.
