Joe,

As the current extension to the settlement agreement expires January 11, 2009, I am requesting a six months extension to allow completion of the remaining open construction items. I think we will actually be complete much sooner than that, but that will allow for the unforeseen.

Just to be sure we are in agreement I would appreciate an update on the remaining requirements to bring this project to a close. My understanding is that when we have completed the repairs to Charles Samuel Drive and the dam and spill way on Lake Carolyn we are completed.

Regards,

Dale Austin
