CITIZENS TO BE HEARD ON NON-AGENDAED ITEMS

GENERAL BUSINESS

8. Consideration of the Office of Management and Budget's Review of the Leon County Educational Facilities Authority (EFA)

County Administrator Alam explained that the Board, at its June 10, 2008 meeting, directed staff to initiate a management review of the EFA.

Assistant County Administrator Rosenzweig summarized the report, findings, and recommendations. He noted that a copy of the report and the EFA's responses to each finding and recommendation was included in the agenda packet.

Speaker: Bob Kellam, 1521 Blockford Court E., Educational Facilities Authority Chairman, responded to the report findings and recommendations. He offered that the Board should determine whether it wanted the EFA to be a viable organization, as acceptance of all recommendations would effectively reduce significantly the Authorities role. He stated that the EFA requests that a County Commissioner be designated as a member of the EFA and that the incoming Chair meet with the EFA Chairman once a year in an effort to increase communication.

Commissioner Rackleff voiced concern about the decline in net assets from Southgate and offered that had the Board received annual reports the accumulated losses from 2004-08 would have been noted. There was discussion with Mr. Kellum regarding Southgate and steps being taken regarding the decrease in its revenue. Commissioner Rackleff stated that more attention needed to be given to working out this problem and expert financial expertise may be needed to review and advise on the situation. He opined that staff's recommendations "doesn't go far enough"

Commissioner Thael stated that he would support designating a Commissioner to serve as an ex officio member to the EFA and recommended Commissioner Rackleff as the designee and supported staff's recommendations. Commissioner Thael asked staff to clarify: what kind of information should be included in the annual report (recommendation 2); what is intended by "in place" (recommendation 3). He also requested that the EFA explain their strategy or philosophy of participation in supporting applications that may or may not be in competition with Southgate. He shared Commissioner Rackleff's concerns and questions regarding the financial challenges related to Southgate and commented that there is a collective obligation to assist with some type of resolution.

Commissioner Rackleff moved, duly seconded by Commissioner Akinyemi, to approve Option 1, as amended: Accept staff's management review of the Leon County Educational Facilities Authority and approve the recommendations contained within the review, and in addition, direct staff to prepare an agenda item to consider the hiring of a financial consultant to assist the EFA in addressing problems at Southgate and for staff to define "in place" in regards to requesting future TEFRA hearings.

Chairman Desloge noted his uneasiness in learning that Southgate was "technically in default" and commented that the Board needed to take some responsibility for not asking the right questions and not requesting information.

The motion carried 6-0 (Commissioner Proctor out of Chambers)

9. Adoption of Recommendations in the Affordable Housing Advisory Committee's (AHAC) 2008 Report

Candice Wilson, Health & Human Services Director, summarized that the Affordable Housing Advisory Committee's report offered 11 recommendations related to affordable housing incentives and that staff concurred with implementation of 8 of the 11 recommendations. She shared that approval of this item would provide direction for staff to move forward with implementation and a formal report, including procedures, would be brought back to the Board on implementation of the remaining recommendations. At that time, the Board can provide further direction.

Speaker: Cynthia Turner, 8351 Chickasaw Trail, AHAC member, voiced opposition to staff's recommendation to not recommend accept all of the proposed incentives proposed by the AHAC. She noted that the information provided to the Board was not approved by the AHAC and did not include everything that the Board approved in December. Ms. Turner asked that the item either be deferred or approved in its entirety.

Commissioner Thaeff asked about the additional funding for down payment assistance and why the Growth Management Department did not support taking Code Violation fines. Ms. Wilson explained that the County was approved for \$1.5 million for the Impact for Visio monies from the state and it is staff's intent to bring back information and request direction on how to implement the \$1.5 million program.

Ms. Wilson established that the report presented is the same report that was presented to the Board in December. She added that the report had been sent to public works, growth management and planning for review.

Commissioner Thaeff moved, duly seconded by Commissioner Akinyemi, to approve Options 1, 2, 3, 4, 5, & 6:

- 1) Adopt the recommendations of the Affordable Housing Advisory Committee to "Incentives a through K" with the exception of "Incentive H" that recommends that modification of street requirements for affordable housing;*
- 2) Adopt the recommendation of the Affordable Housing Advisory Committee to the "SHIP LHAP" with the exception of the recommendation to increase Tallahassee Lender's Consortium's funding to \$250,000;*
- 3) Adopt the recommendations of the Affordable Housing Advisory Committee to the "Leon County Housing Element" with the exception of the recommendation to reallocate code violation revenue to Housing Services from Growth Management;*
- 4) Adopt the recommendations of the Affordable Housing Advisory Committee to the "Leon County Housing Policy";*
- 5) Adopt the recommendation of the Affordable housing Advisory Committee to the "County List of Lands", and*
- 6) Direct staff to develop policies and procedures to implement the recommendation included within the Affordable housing Advisory Committee Report and bring back for final approval by the Board.*

Commissioner Rackleff inquired as to why Public Works advised against the modification of street requirements incentive as this was an appropriate direction for subdivision design, i.e.,

saves money, creates less impervious surface and provides a more walkable streetscape. Joe Brown, Engineering Services Director, stated that currently, enabling codes allows for this type of modification and no code variances or changes are needed.

County Administrator Alam assured Commissioner Rackleff that the issues he raised would be addressed in the policies and procedures brought back by staff.

David McDevitt, GEM Director, stated that they have been working very closely with Public Works to develop a recommended design guidelines document, which would provide recommended guidelines.

The motion carried 6-0 (Commissioner Proctor out of Chambers)

SCHEDULED PUBLIC HEARINGS, 6:00 P.M.

10. Joint City/County Commissions Public Hearing on Cycle 2009-2 Comprehensive Plan Amendments

Attending: County Commission - Chairman Desloge and Commissioners Sauls, Dailey, Akinyemi, Rackleff, Thael and. City Commission - Commissioners Lightsey, Katz, and Mustian. Also in attendance were County Attorney Herb Thiele; Assistant City Attorney Linda Hudson, County Administrator Parwez Alam and Board Secretary Rebecca Vause

Call to Order: Chairman Desloge called the Joint City/County Adoption Hearing on Cycle 2009-2 Comprehensive Plan Amendments to order at 6:00 p.m.

Facilitator: Fred Goodrow, Chief of Comprehensive Planning, Tallahassee-Leon County Planning Department

A. Introductory Comments by Staff: Mr. Goodrow explained that the purpose of the hearing was to provide an opportunity to receive public comment on the 2009-2 Cycle Amendments to the Tallahassee-Leon County Comprehensive Plan. He advised that no action is requested by either Commission; as the amendments would be considered by the County at an April 9 Workshop and the City would consider the amendments at a Workshop on April 7. A joint workshop will be held on May 26.

B. Receipt of Public Comments on Cycle 2009-2 Comprehensive Plan Amendment

Amendment #PCM090201: Withdrawn

Amendment #PCM090202: Proposed map amendment change from Lake Protection to Recreation/Open Space on 16 acres on Timberland School Road and bounded on the south by K-10.

Amendment #PCM090203: Proposed map amendment change from Residential Preservation to IE Education Facilities on 49 acres on Swift Creek Middle School located at 2100 Pedrick Road.

Amendment PCM #090204: Proposed map amendment change from Residential Preservation to Suburban on 0.7 acres located at the northeast corner of the intersection of Woodville Highway and Briandav Street.

Amendment PCM #090205: Proposed map amendment change from Residential Preservation to Suburban on 1.22 acres fronting on the east and west sides of Cadiz Street (118, 124, and 125 Cadiz Street).

Speakers:

Wade Pitt, 805 N. Gadsden Street, spoke on behalf of the applicants and requested the Board's support for the amendment. He noted that the Planning Commission voted 7-0 to recommend approval.

Amendment #PCM090206: Proposed map amendment change from urban Residential 2 and Residential Preservation to Recreation/Open Space on 23.4 acres contained in 3 parcels lying south of Creek Road and east and west of North Ridge Road.

Amendment #PCM090207: Proposed map amendment change from Suburban to Recreation/Open Space on 23.45 acres fronting on the south side of W. Tennessee Street and lying west of Lukeman Lane and north of Shuler Road.

Amendment #PCM090208: Proposed map amendment change on 1.07 acres from Residential Preservation to Suburban on three properties located at the northwest corner of Orange Avenue and Saxon Street and the northeast and northwest corners of Holton Street and Orange Avenue.

Amendment #PCM090209: Withdrawn

Amendment #PCM090210: Proposed map amendment change from Residential Preservation to Central Urban on 1.92 acres fronting on the west side of S. Adams Street between Young and Palmetto Streets.

Speakers:

- Bishop Holifield, P.O. Box 6131, requested that the zoning request not be granted.
- Annette Thorpe, 214 Lincoln St., stated that the Neighborhood Association is attempting to have the neighborhood designated as Historic Preservation and the rezoning proposed would adversely affect this project and would increase noise and crime.
- Edward Holifield, 4032 Longleaf Rd., commented that the affected neighborhood is one of the oldest black communities in Tallahassee and asked how the rezoning would affect efforts associated with the Southern Strategy.
- Ronald Williams, 2114 Broad St., requests that the properties not be changed from Residential Preservation to Central Urban as he wants to avoid encroachment into the neighborhood.
- Bill Douglas, 2467 Centerville Rd., representing BEC Engineering, requested that the four lots between Young and Osceola Streets be included in the rezoning.
- Edward Lewis, 214 Young St., spoke of concerns about the impact of the zoning change, as the neighborhood is a stable, well maintained area. He added that crime and traffic would occur and strongly opposed the request.

Commissioner Thael stated that the rezoning application should be withdrawn immediately due to the historic nature of the neighborhoods and encouraged staff and/or a commission liaison to meet with neighborhood representative(s) to carefully plot out the future and appropriate use of the properties.

There was discussion on whether the action proposed by Commissioner Thaelle would be appropriate at this time, as the hearing was scheduled to receive public comment only.

Commissioner Katz asked Ms Hudson, Assistant City Attorney, for a history of code violations.

Commissioner Lightsey asked staff for the following information before the next Workshop: 1) Date the properties were developed; 2) specifically which are vacant and which are developed; 3) depth of the lots and buffer requirements; 4) if any of the uses have applied for the legally non-conforming status, and 5) was there anything different about the non-conforming developed lots.

Commissioner Rackleff stated that the overwriting value to uphold the residential zoning is to preserve and expand residential dwellings in the southern strategy area and this action would foreclose any possibility of growth. He requested that staff take another look at the amendment.

Commissioner Thaelle established that the amendment was proposed by staff and that the Commission has the authority to withdraw and send back to staff for best and most efficient use of property.

County Attorney Thiele advised that it would be appropriate for the City Commissioners to direct staff to initiate a request to withdraw, as the amendment was in the city limits.

Commissioner Dailey submitted that he was in agreement with fellow Commissioners to withdraw the amendment as there were too many unanswered questions and issues to be worked out.

Commissioner Lightsey stated that she needed more information before making a decision on the matter.

Commissioner Akinyemi voiced his opposition to the amendment and offered that staff should begin the residential preservation designation process.

Commissioner Katz confirmed that the amendment was a staff initiative to bring the zoning designation to reflect what is actually on the property.

Commissioner Katz moved, duly seconded by Commissioner Mustian, to direct planning staff to withdraw the amendment. The motion carried 3-0 (Mayor Marks and Commissioner Gilliam absent).

Commissioner Proctor expressed his support for the City's action. He requested that staff conduct an inventory of the historic impact and quality of the citizens in the neighborhood, i.e., Jake Gaither, etc.

Amendment #PCM090211: Proposed map amendment change from Residential Corridor and Residential Corridor Node to Mahan Gateway Node (a proposed category) on 274 acres fronting on the north and south sides of Mahan Drive and located at the following intersections: Dempsey Mayo Road, Edenfield Road, and Thornton Road

Mr. Goodrow advised that the amendment was initiated by the County Commission.

Speakers:

- David Finley, 5403 Touraine Dr., remarked that the amendment would not enhance Mahan Drive and asked that consideration be given to the impact on property values.
- Sam Frazier, 1945 N. Barnway, voiced concern over language added by the Planning Commission regarding "green building" and asked that this part of the City not be singled out.
- Earl Childers, 5150 Ile de France Dr., commented that he was very concerned about the proposed amendment and its effect on the environment.
- Evelyn Gonzalez, 2201 Bourgoyne Dr, stated that the area did not need any more retail and expressed concern about stormwater runoff and possible flooding.
- David Sims, 1430 Highland Dr., shared that more review on "green standards" was needed and expressed concern over the removal of the huge oak tree at the entrance of Highland Drive.
- Charles Scriven, 2002 Versailles Court, indicated that the proposal would require a buffer from the proposed development and his home and that there was no need to increase density for the area.
- Sam McArthur, 1620 Highland Dr., echoed concerns expressed by neighbors and stated that the changes would change the pastoral nature of the US 90 gateway. He urged commissioners to include the green standards recommended by the Planning Commission.

Commissioner Proctor referenced a March 10, 2009 letter from Mr. McArthur which noted the absence of attachments for the amendment. He expressed concern that the public did not have access to all information and requested that staff would respond to this requirement.

Commissioner Lightsey explained that this was another staff generated request and stated that the amount of commercial development in the area was not what she expected. She requested that information on the commercial development that would be allowed in the nodes be provided at the city workshop and encouraged that recommended commercial development is walk-to commercial and retail to serve residents in adjoining properties.

Commissioner Rackleff commented that he wanted to avoid "piece meal" development and wanted to insure that there are neighborhood scale businesses.

Commissioner Akinyemi stated that he supported the proposal as it protects against future sprawl and would provide an opportunity to make this a true "Gateway".

Amendment #PCT090212: Proposed text amendment to the Future Land Use Element to delete the Mahan Drive Land Use Categories (Residential Corridor and Residential Corridor Node) and adopt a new category, Mahan Gateway Node, to replace the other categories.

Speaker:

- George Lewis, 203 N. Gadsden St., speaking on behalf of the Friends of Lake Jackson and presented the position of the Friends of Lake Jackson Board on the amendment (the document was distributed and submitted for the record).

Amendment #PCT090213: Proposed text amendment change to the Land Use Element to add policy language to the Southern Strategy Area (SSA) policies encouraging healthcare facilities to locate in the SSA.

Amendment #PCT090214: Proposed text amendment change to the Land Use element to add an objective and policy to provide guidance regarding adoption of a "Regional Activity Center" pursuant to Florida Statutes.

Amendment #PCT090215: Proposed text amendment change to the Land Use and Conservation Elements to rename the Downtown future land use category Central Core and facilitate development of a form based zoning code, eliminate the Urban Central Business District overlay, establish a Downtown Overlay in the text of the Comprehensive Plan and exempt development within the proposed Downtown Overlay from the steep slope requirements. Also amends other sections of the Comp Plan to substitute Central Core future land use map (FLUM) category for Downtown (FLUM) category.

Amendment #PCT090216: Proposed text amendment change to the Transportation Element the Northwest Functional Classification Map to reclassify certain sections of the following roads: San Luis Road, Solana Avenue, and Mission Road.

Amendment #PCT090217: Proposed text amendment to the Sanitary Sewer Sub-Element to amend the level of service (LOS) for sanitary sewer systems from a two part LOS of 140 gallons per capita per day for mixed land uses and 100 gallons per capita per day for residential only land uses to a single LOS of 100 gallons per capita per day for any land use. The proposed change is based on flows and loads data collected for the Wastewater Treatment Master Plan.

Amendment #PCT090218: Proposed text amendment to the Housing Element (including the City and Leon County Sections) to add new goals addressing increased energy efficiency in the design and construction of new housing and the use of renewable energy resources.

Amendment #PCT090219: Withdrawn

Amendment #PCT090220: Withdrawn

Amendment #PCT090221: Withdrawn

Amendment #PCM090222: Proposed text amendment to the Conservation Element to allow for the reconstruction and moderate expansion of legal nonconformities within elevations consistent with the Special Development Zones provided in Policy 2.2.12:[C].

Amendment #PCT 090223: WITHDRAWN

C. Adjournment
