Subject: RE: Joint City/County Health Insurance

Thank you for your email regarding the potential Joint Health Insurance Broker Program. What was indicated at the meeting was that a proposal would be provided at year end or early 2011, not wanting to interfere with the enrollment periods for the County and City. Unfortunately I have experienced some health issues resulting in surgery in late November. All is fine now and I am awaiting a meeting with the City Manager's Office to finalize the reports. You were very helpful in presenting our firm a listing of the County's needs regarding services and once this information is completed by the other participants we will move forward. I remain excited about the benefits of a joint effort for all three governmental entities and look forward to providing you with this proposal in mid January. If you have any additional questions regarding the follow up of our meeting please don't hesitate to let me know. My numbers are listed below. Thank you for your follow up and interest.
