

ORDINANCE NO. 14- \_\_\_\_\_

1  
2  
3 AN ORDINANCE OF THE BOARD OF COUNTY  
4 COMMISSIONERS OF LEON COUNTY, FLORIDA, AMENDING  
5 CHAPTER 10 OF THE CODE OF LAWS OF LEON COUNTY,  
6 FLORIDA, RELATING TO THE LAND DEVELOPMENT CODE;  
7 AMENDING SECTION 10-6.612, RURAL ZONING DISTRICT,  
8 RELATING TO RETAIL TRADE; AMENDING SECTION 10-  
9 6.619, COMMERCIAL SITE LOCATION STANDARDS,  
10 RELATING TO MINOR COMMERCIAL USES; PROVIDING FOR  
11 CONFLICTS; PROVIDING FOR SEVERABILITY; AND  
12 PROVIDING AN EFFECTIVE DATE.  
13  
14

15 WHEREAS, the rural zoning district in Leon County features undeveloped and  
16 nonintensively developed acreage remotely located away from urbanized areas, and contains  
17 the majority of the County's present agricultural and low density residential; and  
18

19 WHEREAS, the purpose and intent of the rural zoning district is to maintain and promote  
20 present and future agricultural and silvicultural uses and to prohibit residential sprawl into  
21 remote areas lacking basic urban infrastructure and services; and  
22

23 WHEREAS, minor commercial activities designed to service basic household needs of area  
24 residents are allowed; and  
25

26 WHEREAS, the Board of County Commissioners of Leon County wishes to provide  
27 enhanced safeguards and levels of review for commercial activities proposed in the rural zoning  
28 district to ensure consistency with the intent of the category; and  
29

30 WHEREAS, the Board wishes to provide additional criteria, guidelines and design standards  
31 concerning the development of retail uses, including gasoline service stations, with or without  
32 convenience stores, in the rural zoning district; and  
33

34 WHEREAS, the Board wishes to disallow minor commercial uses on or near the intersection  
35 of local and arterial roadways in the rural zoning district;  
36

37 BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF LEON COUNTY,  
38 FLORIDA, that:  
39

40 **SECTION 1.** Section 10-6.612 of Article VI of Chapter 10 of the Code of Laws of Leon County,  
41 Florida, entitled "Rural zoning district," is hereby amended to read as follows:  
42

43 **Sec. 10-6.612. Rural zoning district.**  
44

45 (a) *Purpose and intent.* This section applies to the rural zoning district which includes  
46 undeveloped and nonintensively developed acreage remotely located away from  
47 urbanized areas containing majority of county's present agricultural, forestry and grazing  
48 activities. Land use intensities associated with urban activity are not anticipated during  
49 the time frame of the Comprehensive Plan, due to lack of urban infrastructure and  
50 services. Very low residential density (one unit per ten acres) and small scale  
51 commercial activities designed to service basic household needs of area residents are

Adjoining lower intensity use					
Building	—	15	100	—	—
Parking	—	15	100	—	—
Maximum percent impervious surface area	30	30	30	30	30
Maximum height at building envelope perimeter	35	35	35	35	35
Maximum height per additional setback	1/1'	1/1'	1/1'	1/1'	1/1'
Total maximum height	—	45	45*	45	—
Minimum lot area (acres)	10.0	0.5	10.0	1.0	0.5
Minimum lot frontage	15	40	100	—	15

\* This height applies to habitable portion of an industrial structure.

(f) *Development standards.* All proposed development shall meet the commercial site location standards (section 10-6.619); buffer zone standards (section 10-7.522); and the parking and loading requirements (Subdivision 3 of Division 5 of Article VII).

1  
2  
3  
4  
5

1  
2 (1) *Mining activities.*  
3

4 a. All mining activities as defined on the schedule of permitted uses must  
5 meet the specific development standards, as follows upon review and  
6 approval by the Board of County Commissioners following a duly  
7 noticed public hearing. This includes SIC items 144 and 145.  
8

9 b. A plan must be submitted demonstrating protection of adjacent  
10 properties and public interest which shall include, but not be limited to  
11 the following:  
12

13 1. The mining activity, all accessory uses and structures, internal  
14 roadways, and driveways onto the adjacent streets shall be set  
15 back a minimum of 100 feet from the perimeter property  
16 boundaries or 200 feet from the nearest off-site residence,  
17 residential zoning district, or subdivision intended primarily for  
18 residential land use, whichever distance is greater. This  
19 setback standard may be reduced if less of a setback is  
20 approved in writing by the adjacent property owner or owners  
21 prior to site plan approval or if the adjacent property is also  
22 used as a mining activity.  
23

24 2. A plan of vehicular access to and from the site demonstrating  
25 that heavy trucks and equipment will not travel on that portion  
26 of a local or minor collector street with frontage containing  
27 residential land use, zoned for residential land use, or  
28 containing subdivision lots intended primarily for residential  
29 land use. For purposes of this requirement, local and minor  
30 collector streets shall be those identified in the local  
31 government Comprehensive Plan and the Tallahassee-Leon  
32 County Long Range Transportation Plan.  
33

34 3. A land reclamation plan shall be submitted demonstrating that  
35 upon termination of the activity the land shall be returned to a  
36 condition that will allow an effective reuse comparable to  
37 surrounding properties.  
38

39 4. Fencing requirement: All areas proposed for use in open-pit  
40 mining operations and/or construction and demolition debris  
41 disposal must be secured by a fence, unless the area is  
42 determined by the county administrator or designee to be a  
43 reclaimed open-pit mine. The fence must be at least four feet  
44 in height with openings that will reject the passage of a seven-  
45 inch diameter sphere. The fence must be equipped with a gate  
46 which shall remain locked when workers or employees of the  
47 land owner or mining company are not present at the site. At  
48 every gate or access point, at least one sign must be posted  
49 which states, in at least four-inch tall letters, "Danger," "Keep  
50 Out," "No Trespassing," or similar language indicate that there  
51 may be hazardous conditions on the premises.

1  
2 (g) *Restricted uses and special exception uses.* If uses are restricted or are special  
3 exception uses according to the schedule of permitted uses, they will not be allowed  
4 unless they follow the general development guidelines for restricted uses as provided in  
5 this division or for special exceptions as provided in this subsection. Specific restricted  
6 uses are addressed in this division.  
7

8 (1) *Lumber and wood products.*  
9

10 a. A plan must be submitted demonstrating protection of adjacent  
11 properties and public interest which shall include, but not be limited to  
12 the following:  
13

- 14 1. All buildings and outside activities associated with the use  
15 shall be set back a minimum of 200 feet from the nearest off-  
16 site residence or subdivision intended primarily for residential  
17 land uses.  
18

19 (2) *Camps and recreational vehicle parks (SIC 703).*  
20

21 a. A plan must be submitted demonstrating protection of adjacent  
22 properties and public interest which shall include, but not be limited to  
23 the following:  
24

- 25 1. Sanitary facilities shall be provided.  
26 2. Not more than ten campsites per acre shall be provided.  
27 3. Individual campsites, roadways, and accessory structures  
28 shall be located to meet the minimum building setback  
29 standards from the exterior property lines of the campground.  
30

31 (3) *Heavy construction equipment rental and equipment rental and leasing (SIC*  
32 *7353 and 7359).*  
33

34 a. A plan must be submitted demonstrating protection of adjacent  
35 properties and public interest which shall include, but not be limited to  
36 the following:  
37

- 38 1. Such equipment rental and leasing must be associated with  
39 timbering and/or agribusiness.  
40  
41 2. A plan of vehicular access to and from the site demonstrating  
42 that heavy trucks and equipment will not travel on that portion  
43 of a local or minor collector street with frontage containing  
44 residential land use, zoned for residential land use, or  
45 containing subdivision lots intended primarily for residential  
46 land use. For purposes of this requirement, local and minor  
47 collector streets shall be those identified in the local  
48 government Comprehensive Plan and the Tallahassee-Leon  
49 County Long Range Transportation Plan.  
50

51 (4) *Retail Trade*

a. A plan and supporting narrative must be submitted pursuant to the Type B site and development plan process that demonstrates compliance as applicable with the following:

1. Free-standing onsite signs shall be limited to monument-style signs and the sign base shall be consistent with the materials and design context of the primary onsite building. Signs shall be illuminated with externally mounted lighting focused on the sign in a manner that limits off-site illumination. Internally illuminated signs and pole signs are prohibited.
2. Building design including any proposed accessory buildings and structures shall reflect or compliment the local vernacular architectural style. Building facade treatments and materials shall provide architectural interest through, but not limited to: the utilization of fenestration that allows for natural surveillance and gabled or parapet roof treatments. Flat roof treatments are prohibited.
3. Onsite lighting including 24-hour security lighting shall be wall mounted with illumination focused on the building in a manner that limits off-site illumination.
4. Perimeter buffering and/or fencing requirements shall be based on the density of the adjacent residential uses. If the adjacent density is one residential unit per two acres or less, a Type C buffer shall be required. A wooden buffer fence may be utilized on sites where the required vegetative buffer cannot be established based on site limitations or constraints.
5. The trash collection dumpster shall be assessable to waste collection vehicles, and shall be located in the side or rear setback area of the onsite principle building. The dumpster shall be screened with a material and design treatment consistent with the building façade of the principle building.
6. All appurtenant mechanical and electrical equipment, outside collection/drop-off/storage areas, and other accessory or ancillary structures shall be screened from public view. The screening material shall be consistent with the materials and design context of the primary onsite building.
7. The site design shall integrate internal and where appropriate external pedestrian circulation and interconnection including the accommodation of bike circulation were applicable.
8. The hours of operation shall be limited to 6:00 am to 10:00 pm.
9. The site shall be designed were applicable to provide a cross-access easement to adjoining property in the commercial

1                    node. The cross access easement shall be improved to the  
2                    property boundary.

3  
4                    10. Other site design treatments and considerations as may be  
5                    applicable to the proposed use and shall be identified during  
6                    the proposed project's application review meeting.

7  
8                    11. The applicant shall submit documentation demonstrating  
9                    compliance with the trade area and customer expectation  
10                   provisions outlined in Section 10-6.619(b)c.

11  
12                   b. For a proposed gasoline service station with or without a convenience  
13                   store, in addition to the development guidelines outlined in paragraph  
14                   a., must also demonstrate compliance with the following criteria,  
15                   guidelines and standards on a plan and supporting narrative  
16                   submitted pursuant to the Type C site and development plan review  
17                   process:

18  
19                   1. The number of fuel pump islands shall be limited to three with  
20                   each pump island limited to two fueling positions or six total  
21                   fueling stations.

22  
23                   2. The fuel pump island awning design standards shall include,  
24                   but shall not be limited to, materials and contextual design  
25                   integrated with the onsite building facade treatment. The fuel  
26                   pump island awning height shall be limited to 18 feet as  
27                   measured from grade. The fuel pump island awning lighting  
28                   shall be designed in a manner that reduces off-site  
29                   illumination.

30  
31                   3. Accessory structures and ancillary uses such as, but not  
32                   limited to, vehicle washes (attached or stand-alone) and multi-  
33                   unit vacuuming stations are prohibited.

34  
35                   4. Free-standing lighting in the parking areas, drive isles, or other  
36                   onside areas shall be limited in height to 15 feet as measured  
37                   from grade, and shall be designed in a manner that reduces  
38                   off-site illumination.

39  
40  
41                   **SECTION 2.** Section 10-6.619 of Article VI of Chapter 10 of the Code of Laws of Leon County,  
42                   Florida, entitled "Commercial site location standards," is hereby amended to read as follows:  
43

44                   **Sec. 10-6.619. Commercial site location standards.**

45                   (a) The provisions of this section apply to the following zoning districts: Rural, Urban  
46                   Fringe, Activity Center, Rural Community, Lake Protection, Residential Preservation,  
47                   Lake Talquin/Urban Fringe, and Industrial. Commercial sites are determined through the  
48                   use of site location standards. The intensity of the commercial use is dependent upon  
49                   the land use category of the potential site and the classification of the immediate

1 adjacent roads. Individual road classifications are depicted on map 14 of the  
2 Comprehensive Plan. The site location standard is intended to group commercial land  
3 use toward intersections to provide access and prevent strip commercialization.

4  
5 (b) *Commercial classifications.*

6  
7 (1) *Minor commercial.*

8  
9 a. *Major function:* Provide for sale of convenience goods and services to  
10 immediate residential area.

11  
12 b. *Location:*

13  
14 1. On or near the intersection (within 330 feet of the centerline of  
15 the intersection) of ~~local and collector~~, local and arterial,  
16 collector and arterial, and collector and collector. Minor  
17 commercial uses are not allowed on or near the intersection of  
18 local and arterial roadways in the rural zoning district.

19  
20 2. May be located within planned unit development provided it is  
21 located and designed to meet commercial needs of the  
22 majority of the residents of the development.

23  
24 3. If on a local street, only one quadrant of the intersection shall  
25 be used for commercial purposes.

26  
27 c. *Trade area:* Generally within one mile and not considered as an  
28 attractor.

29  
30 d. *Design standards:*

31  
32 1. Compatible with adjacent uses.

33 2. Adequate buffering, screening, landscaping and architectural  
34 treatment if integrated into neighborhood.

35 3. Sufficient parking; properly designed and safe internal traffic  
36 circulation.

37  
38 (2) *Neighborhood commercial.*

39  
40 a. *Major function:* Provide for the sale of convenience goods and  
41 personal services such as food, drugs, sundries and hardware items  
42 to one or more neighborhoods.

43  
44 b. *Leading tenants:* Supermarket, drugstore and postal substation.

45  
46 c. *Location:* At the intersection of major collector and arterial or arterial  
47 and arterial. Only one neighborhood commercial development will be  
48 allowed within one-quarter mile of the centerline of the intersection of  
49 a major collector and arterial road.

1  
2 (3) *Community commercial.*  
3

- 4 a. *Major function:* Same functions of neighborhood commercial but on a  
5 large scale, provide for sale of retail goods such as clothing, variety  
6 items, appliances and furniture, hardware and home improvement  
7 items.  
8  
9 b. *Leading tenants:* Supermarket, drug store, minor department store,  
10 home improvement center, variety or discount center.  
11  
12 c. *Location:* Within one-quarter mile of the centerline of the intersection  
13 of arterials. Prohibited on designated canopy roads.  
14  
15 d. *Radius of trade area:* Five miles or 15 to 20 minutes driving time.  
16 Service distinct geographical quadrants of three or more combinations  
17 of neighborhoods within community.  
18

19 (4) *Regional commercial.*  
20

- 21 a. *Major function:* Same functions of community center, provide full  
22 range and variety of shopping goods for comparative shopping such  
23 as general merchandise apparel, furniture and home furnishings.  
24  
25 b. *Leading tenants:* One or more full time department stores.  
26  
27 c. *Location:* Integrated into local transportation system and accessible  
28 by combination of arterials, major collectors, expressways and  
29 interstate highways. Potential on-site and off-site transportation  
30 improvements needed to provide adequate ingress and egress.  
31 Prohibited on designated canopy roads.  
32  
33 d. *Radius of trade area:* Regional.  
34  
35 e. *Site area:* Minimum 35 acres.  
36  
37 f. *Range of gross floor area:* Over 200,000 up to 1,000,000 square feet.  
38

39 (5) *Highway commercial.*  
40

- 41 a. *Major function:* Provide for consumer oriented retail services  
42 designed for drive-in convenience.  
43  
44 b. *Leading tenants:* Fast food franchise, liquor store, automotive service  
45 (i.e. oil change), and convenience stores.  
46  
47 c. *Location:* Access via a combination of arterials or major collectors or  
48 integrated into transportation network by comprehensive ingress and  
49 egress system. Parking within rear is encouraged.

- d. *Radius of trade area:* May serve immediate area but relies heavily on passerby traffic.
- e. *Range of gross floor area:* Up to 10,000 square feet.
- f. *Design standards:*
  - 1. Adequate setback.
  - 2. Aesthetic landscaping.
  - 3. Rear parking.

**SECTION 3.** Conflicts. All ordinances or parts of ordinances in conflict with the provisions of this Ordinance are hereby repealed to the extent of such conflict, as of the effective date of this Ordinance, except to the extent of any conflicts with the Tallahassee-Leon County Comprehensive Plan, as amended, which provisions shall prevail over any parts of this Ordinance which are inconsistent, either in whole or in part, with the Comprehensive Plan.

**SECTION 4.** Severability. If any section, subsection, sentence, clause, phrase or portion of this article is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct, and independent provision and such holding shall not affect the validity of the remaining portions of this Ordinance.

**SECTION 5.** Effective date. This ordinance shall be effective according to law.

DULY PASSED AND ADOPTED BY the Board of County Commissioners of Leon County, Florida, this \_\_\_\_ day of \_\_\_\_\_, 2014.
