L.I.F.E. RURAL ROAD

SAFETY STABILIZATION PROGRAM APPLICATION

Name of Applicant: \_\_\_\_\_ Date: \_\_\_\_\_

Address: \_\_\_\_\_

Phone Number: \_\_\_\_\_ Email: \_\_\_\_\_

Dirt road requested for repair: \_\_\_\_\_

Please give a detailed description of the requested repairs: \_\_\_\_\_

---

---

---

Rural road repairs and improvements completed under this program are intended only to stabilize the dirt road, not to improve it to County road standards. Approved repairs and improvements will typically be limited to the following:

- Roadside ditch repair;
- Dirt road grading;
- Addition of soils for the purpose of dirt road stabilization;
- Addition of aggregates for the purpose of dirt road stabilization; and
- Installation of sod and sediment controls for the purpose of stabilizing areas associated with road and stormwater repair activities.

I acknowledge that I have read the L.I.F.E. Rural Road Safety Stabilization Program Policy and understand that Public Works staff will review the history of the road requested for repair, consider its traffic patterns, and verify its condition. Upon evaluation, it will be determined if the requested repairs are warranted, and if so, the extent required to sufficiently stabilize the road and the boundaries within which the repairs will be performed. I further understand that approval and scheduling of all requests shall be contingent upon the availability of Leon County funding.
