"Educate and inform the whole mass of the people... They are the only sure reliance for the preservation of our liberty." - Thomas Jefferson

The 242nd Fourth of July

The Fourth of July is a time to celebrate your freedom with family and friends while beating everyone at corn hole, and grilling out in the Florida heat (where the grill itself is optional). It is also an opportunity to reflect back on the conditions that made this great experiment possible: the bravery and strategy of our Founding Fathers.

People tend to view the Revolutionary War as a group of scrappy upstarts waging war against the mighty British behemoth. The Revolutionary War, however, began with a vision of freedom and equal representation and the words that flowed from the ink in the Founding Fathers' quills were the first shots. Their ideas were radical for their time but today we see democracy as a cornerstone of the free world. This to say, just because something hasn't been done doesn't mean it won't happen, and just because an idea is radical today doesn't mean it won't go down in the history books as revolutionary.

This country has given you an opportunity to pursue your dreams, take advantage of your freedom, and turn your dreams into your reality.

"You will never know how much it has cost my generation to preserve YOUR freedom. I hope you will make a good use of it." John Adams

Yours in Service,

Nick
